## SUMMARY

25X1D

25X1D

This installation, located in the northern part of Daugavpils (Figure 1), is partially secured by a single fence and contains a large, double-fenced storage area.

The installation covers approximately 250 acres and contains 7 administration buildings, 9 barracks, 90 storage buildings, and 19 support buildings (Figures 2 and 3).

25X1D [redacted] missions of good quality photography, from [redacted] were used in this report. Comparative analysis reveals the area

is active year round. Between [redacted] and [redacted] 16 buildings were razed and 23 constructed; between [redacted] [redacted] 14 buildings were razed and 8 constructed; and between [redacted] [redacted] 5 buildings were razed and 6 constructed.

This does not appear to be a barracks area, as indicated in the TDI under [redacted]. It probably should be carried as a storage facility with an associated housing area.
